

User Success Stories

McGuire Trucking, Inc.

McGuire Trucking is a growing over-the-road trucking company based in Cleveland, GA. They have used Prophesy DispatchSeries software to run their business since April of 2004.

Jill Cochran, dispatcher with McGuire Trucking, was involved in the selection of their Prophesy Dispatch-Series Software. "We chose Prophesy to help us compile all of our information and streamline the way we do things. The program has done wonders to enhance our productivity and cut down the time spent on payroll and billing dramatically," said Cochran. "It has literally cut hours a day from the time I used to spend entering all of the information." The company also uses the software to simplify their fuel tax reporting as well as driver safety and management.

"The program has done wonders to enhance our productivity and cut down the time spent on payroll and billing dramatically."

In addition, the company has flourished following the installation of their Prophesy DispatchSeries software. McGuire Trucking has increased their fleet by 25% with 3 new trucks added in the 14 months since implementation of the solution.

A novice to software in the beginning, Cochran was able to get up to speed with the user-friendly dispatching software quickly. "I was skeptical at first on

how hard it would be to learn the program," said Cochran. "I went through the telephone training and used the training CD's, but really I was able to just get in there and find my way along, and it was all pretty simple... now I use it every day!"

Cochran also rated the service she received from the Prophesy Sales, Training, and Support Teams as "great! great! and great!"

Based in Cleveland, Georgia, McGuire Trucking has been in business since 1990. The company currently runs 13 trucks, hauling general freight nationwide.
